Important Passport and Visa Information:

It is your responsibility to ensure that you understand and meet the passport and visa entry requirements for the destination that you are travelling to. In order to help you understand the requirements we recommend you visit the [Foreign Travel Advice](#) section of the Foreign & Commonwealth Office website prior to travelling abroad to check general visa, passport, health and safety information. It is advised that you always travel with a minimum of six months left on your passport. This is particularly important when travelling to countries outside the EU, for example Egypt and Turkey.

BREXIT: The UK government is recommending that travellers going to the EU after 31 January 2020 have a minimum of six months left on their passport and is also advising that any extra months which have been added to a 10-year passport will not be valid. This applies to adult and child passports travelling to countries in the Schengen area, [find a full list here](#).

The Passport Office has released a toolkit and customer Q&A to help make customers aware about passport validity changes in the event that the UK leaves the EU without a deal on 31 October 2019, [passport checker tool](#).

You can find more information relating to Passport and Visa requirements on our [Frequently Asked Questions](#) page.

What if I have a problem whilst I am at the hotel?

The quickest way to resolve an issue whilst on holiday is to speak directly to the reception and management of the hotel itself as most situations can be resolved locally. If it isn't possible to resolve the situation or issue locally then please contact our in-resort team directly on +44 1233 800490

Please note that we book our hotels through our local partners to ensure you always get the best deals at the most attractive prices. Once we secure your booking, your name may not be passed to the hotel until closer to the time of travel - so if you happen to contact your hotel in advance and they don't recognize your booking, this is simply standard practice and not a cause for concern.
